EXPERIENCE

Software Developer | AI Automation Specialist **Nov 2025 – Present**

Zyberlab

- Built and shipped front-end web applications in Vue.js and React.js, delivering 12+ features and cutting average page load time by 30%.
- Designed and deployed AI automation workflows (n8n, Zapier, Make) for a healthcare management system, reducing manual data entry by 10+ hours per week and cutting appointment-processing time by 40%.
- Led implementation of a headless CMS on Likha ERP and GoHighLevel, enabling the content team to publish without developer help and cutting publishing time by 50%.

Front-End Developer | SEO Specialist **Jan 2025 – Nov 2025**

MutualArt

- Improved Largest Contentful Paint from 4.2s to 2.4s and raised Lighthouse performance scores from 62 to 90 on key pages of ASP.NET, Vue, and Next.js sites.
- Optimized technical SEO (indexing, structured data, site speed), growing organic traffic by 25% in six months.
- Maintained and scaled 3 production sites with 99%+ uptime, partnering with developers, designers, and content teams to deliver 10+ SEO and performance improvements.

Front-End Developer **Jul 2024 – Jan 2025**

Wancemo

- Built responsive interfaces with Next.js, React, and Tailwind CSS for 4 projects, improving mobile load time by 25%.
- Delivered 15+ features across team sprints using Git-based workflows and code reviews.
- Collaborated with 3+ developers and designers through code reviews and daily standups, reducing UI bugs reaching production by 20%.

Full Stack Developer Intern **Dec 2023 – Jun 2024**

Edufied

- Led a cross-functional team of 5 to build and launch a cloud-based headless CMS website for FPAS using Strapi and WordPress, delivered in 8 weeks.
- Built front-end pages and REST API endpoints for 2 team projects, supporting 100+ active users.
- Introduced a version control process on Bitbucket, boosting team efficiency by 75%.
